Medicaid helps millions of Americans every day. It is the largest health care program in the United States, covering more than 20 percent of the U.S. population. Medicaid helps a diverse population get the care they need to stay healthy and productive – delivering innovative health solutions and better services, while promoting high-quality care and lower costs.

The Modern Medicaid Alliance invites you to a compelling event on the future of Medicaid. You'll hear insights from some of the nation's leading Medicaid experts discussing improvements and innovation, and a policy discussion focusing on the current state of the Medicaid program.
